Read the News. The regular circulation of the Dai'y Conrier is almost twice as great as it was on the first of January last, and larger by thousands than at any former period. The circulation of the Weekly Conrier, though much greater than beretolere, has

not increased in the same proportion. We have two reasons now for asking oufriends in the State and out of the State to make an carnest effort to circulate the Courier In their respective neighborhoods. First, the declins in the business and trade of the city, caused almost wholly by the unboly and unjustifiable war waged by the Administration against the Southern States, and by its illegal and unwarrantable interference with the navigation of the Ohio and Mississippi rivers and with the domestic commerce heretofore carried on between the States, has so affected our advertising and job business, in common with that of all other newspapers in the country, as to make an increased circulation necessary to justify the expense incurred by us in securing the carliest, fullest, and mest reliable information from all parts of the country, and in giving it to the public in advance of all contemporaries. Second. It is necessary to the encuss of the great cause of Southern Hights, that the people shall be fully informed in regard to current events in and out of the State; that they shall be advised of the illegal and unconstitutional acts of the prescut Administration that they shall be told of the purposes. plots, intrigues, and acts of those among who sympathise with the usurpers at Washington; that they shall hear of the attempts belug made to arm one party lu the State for a war against another party, and so to inaugurate a bloody and desolating contest between our own fellow eltizens on our own soil; that they shall have the evidence of the perfidy of those who are endeavoring to bring Abolition troops into our midst to establish among us the military despotism under which the people of souri and Maryland now grean :-- and this information will be obtained from the Conrier, which has faithfully chronicled, as it will continue to record, every event the knowledge of which is necessary to

the dangers that surround them. For these reasons we want twenty thou eand new subscribers to the Weekly Courier within the next month; and certainly of the old Union. we should have them from Kentucky alone saying nothing of the thousands we may Journal's candidates for the same office, resconably expect from Tennessee and Mis- is for the South if Kentucky shall be com-

The political events of the next sixty days will be of the usuost Importance particularly to the paople of Kentucky. Members of Coagress are to be elected on The Southern Confederacy is now a first the 20th of June. Congress meets at and one that must soon be acknowledged Washington on the 4th of July. Members by the most stupid or unwilling. of the State Legislature will be chosen in Angust. And in all these things, the public whether it agrees with these the people of Kentucky are deeply inter- distinguished gentlemen in the preference ested. In the elections for members of they have expressed? Or does it talher Congress and for the Legislature, the agree with Brigadier General LOVELL II. Courier must, from its present immense Rousseau in his preference for a Northern circulation, exert great influence; and two to a Southern Confederacy? hundred additional copies in each county would effect great good.

In the meantime, mititary movements on a gigantic scale rivet the attention of millions, and none are more intensely inter ested than the people of Kentucky in the rigult. This expectation of great events now apparently at hand, is favorable to the distribution of newspapers, and should make ours-the largest, cheapest, and most candid and Impartial in the country-cagerly sought for.

We, then, ask the friends of the South, of Kentneky, of her institutions, to unite | enlisted to carry out Lincoln's inconstituin an earnest effort to put the WEEKLY | tional, wicked, and rninous policy. Courses into every house in the State, that good may thereby come to them and to our beloved Commonwealth.

Hon. Archie Dixon.

For a long period Gov. Dinon has been phatically a "representative man." Possessed of fine talents, a ready and brilliant elocution, frank, cordial, bold, ardent, en- hands of Dr. Young. thusiastic, brave, honest, and sincere, no man in the State more exactly represents the dashing, bold Kentneklan. Knowing this, we have watched his conrae in recent political events with much interest. We were well advised of his devoted at tachment to the Constitutional Luion of the States. And we knew also, that he utterly condemed secession as a remedy for Southern wrongs. Taese wrongs he felt as deeply as any man, but his "mode of redress" did not embrace secssion. Nevertheless, reading his published speeches we saw very clearly that he felt these wrongs, and that with the spirit of independence strong within him, he would seed to civil jurisdiction; and I will briefly set down the course I intend to take. I only the predence strong within him, he would seed the statelinent yesterday, because, upon the fare of the return, the detention ing this, we have watched his conrac in

We know that in recent conversations with his triends in this city, Law. Dixon has in the most open, unreserved, and magnified manner declared binself in favor of the armed neutrality of the State, and in of the armed neutrality of the State, and in favor of compelling both the Federal and the Southern troops to respect to. He has stated again and scain the this judgment, the recent arther from Secretary Chase to stop shipments over the Louisville and Nashville railroad was illegal, and file it with the Clerk in the course of this work. and that the courts would so declare week. them; and that in such event any return, I would state that the Marshel kas it the moment it was brought before attempt of the Lincoln Administration to enforce thus order by military force should be resisted to the last e treaty by the whole power of the Stafe, that in such a contingency there "would be but one things for the last of resist.

And more recently Legaid in the most emphalic manner, that he approved Gov. Macornis's recent predatation declaring the neutrality of the State—that he "indorsed were word of it." When asked if he authorized the statement to be made public, his reply was most characteristic. He said: "You have known melous counter." public, his reply was most characteristic.

He said: "You have known melong enough to and well enough to know that I have no concealments, no political quinions I am not ready to inter any and every where, and, moreover, to maintain them against all enemies. "The letter is a very fair manifestation of the ability which has been accorded not versally to Gov. Morehead, but, we are bound to own, of little or nothing else for which his political friends have given blue credit. It seems to us to evince a complete moral and political transformation. It is utilike the man. It is utilike the State. There is hardly anything in it obstacteristic of either. In vain do we scatch the revolutionary tirade for a glimpse of conservation, in vain do we explore the dreary waste of accession platitudes in quest of one gennine throb of love of country. In vain do we serntinize the tissue of disminon sophistry and extravagance for a solitary

Absolutely nothing of this is discernible. The letter is as uterlidevoid of the true spirit of Kentucky and the wildest revolutionary manifests of the milest revolutionary manifests of the the wildest revolutionary manifesta of t the wildest revolutionary manifests of the day. The message of Jeff Davis himself is not less in harmony with the ruling sectiment of our Commonwealth. In short, Gov. Morehead, in casting off his own catallished public character, plants himself in direct and flagrant antagonism with the settled public feeling of Kentucky.

Governor MOREHEAD, one of the ournal's candidates for the Border Slave | theeling. State Conference, thinks Kentucky should go with the Southern States if two Confederacies shall be formed out of the Status

CINCINATI, May 29.—On Sunday night Col. Kelly, in command of the First Regiment of Virginia Voinuteers, stationed at Wheeling, received orders to march.
